Abdominal tuberculosis. See Tuberculosis.

Abscess
- anemic, liver, enzyme-linked immunosorbent assay in the detection of antigen, 1988: 7: 239.
- anemic, liver, obstructive jaundice as a complication of, 1984: 3: 47.
- anemic, liver and spleen (L), 1989: 8: 204.
- anemia of women (L), 1989: 8: 205.
- cirrhotic, chronic hepatic (CS), 1991: 10: 146.
- glycogenic, hepatic in a neonate (L), 1988: 7: 56.
- pancreatic, multiple, pancreatic diabetes mellitus and (L), 1986: 5: 165.

Achalasia cardia

Acid secretions. See Gastric acid secretion.

Acute viral hepatitis. See Hepatitis.

Adrenocorticaloma of the transverse colon (L), 1988: 7: 57.

Adenocarcinoma
colonic, in a child (L), 1988: 7: 182.
primary, duodenal (L), 1989: 8: 301.

Adenoma, villous
ampullary, in familial polyposis coli (CS), 1991: 10: 152.
duodenal (L), 1989: 8: 203.

AIDS, intractable diarrhea and melena in (CR), 1990: 9: 159.

Alimentary

Alcohol

Alcoholism, as an etiological factor in pancreatitis, 1983: 2: 9.

Alkaline phosphatase, changes in kinetic properties of; stabilization of rat intestinal microvillus membrane with sodium dodecyl sulfate, 1985: 4: 165.

Alpha-1-antitrypsin in liver diseases, 1983: 2: 133.

intestinal, stool culture as a diagnostic aid for (E), 1985: 4: 139.

Anemia
- anemic, liver abscesses. See Abscess.
- amyloidosis nephrotic syndrome compared to oral neomycin in rats, 1982: 1: 19.
- amyloidosis primary (L), 1986: 5: 61.

Anal incontinence
- See Anorectal manometry.

Anemia
- in iron deficiency anemia (E), 1989: 8: 125.
silica and polyvinyl in rats, 1989: 8: 163.

Angiography and small bowel cancer, small bowel leiomyoma diagnosed by (L), 1988: 7: 263.

Anorectal manometry
- anal manometry and rectal sensory testing in anorectal conditions, 1990: 9: 75.

Antacids
- in duodenal ulcer (E) 1993: 2: 73.

Appendicitis, Malakoplakias of (L), 1989: 8: 304.

Atherosclerosis of arteries (L), 1989: 8: 201.

Artificial liver support in fulminating hepatic failure, 1985: 4: 177.

Ascariasis
- anacanthobiosis of oesophagus (L), 1987: 8: 301.
- hepatic and pancreatic (GH), 1978: 10: 137.

Ascites
- bile, following percutaneous transhepatic needle liver biopsy (L), 1950: 9: 86.
- low protein content of - precipitate in the diagnosis of abdominal tuberculosis (L), 1985: 4: 263.

Aspirin
- and gastric mucosa, 1984: 3: 182.
- effect of regular and soluble aspirin on duodenal mucosa, 1984: 3: 147.

Biliary dysenteria; study of trace elements in, 1983: 2: 17.
Bacteremia following upper gastrointestinal endoscopy, 1987; 6: 207.

Basilic dilatation
for jejunal ulcer (CR), 1991; 10: 144.
Banana powder, vegetable, effect on changes induced by ulcerogenic agents on dissolved mucousmases in gastric juice, 1985; 4: 249.
Barrett's esophagus following Heller's myotomy (L), 1986; 6: 62.
Bile acid, serum, comparison with standard liver function tests in liver disease, 1989; 8: 31.
Bile atrecta. See Ascelites.
Bile duct stones
  endoscopic sphincterotomy without choledochotomy for, 1988; 7: 105.
  retained. Chemolysis with methyl tert-butyl ether (L), 1989; 8: 55.
calculi, trace elements in, 1988; 7: 15.
Bile duct obstruction
  obstruction, high, malignant, management of, 1988; 7: 155.
  obstruction, malignant, cholangiographically guided aspiration cytology in, 1990; 9: 93.
Bile duct stricture
Bile peritonitis, biliary scintigraphy for (CS), 1994; 10: 25.
Biliary ascariasis. See Ascarisiasis.
Biliary manometry. See Manometry.
  common bile duct pressure and flow, 1987; 6: 73.
does the pressure show? (E), 1987; 6: 69.
Biliary tract
  bacterial flora in surgical patients with biliary tract disease, 1988; 7: 73.
endoprostheses, endoscopic transpapillary placement of (CR), 1987; 6: 115.
endoscopic lithotomy and percutaneous transhepatic cholangiography (SA), 1989; 9: 8.
percutaneous transhepatic endoscopic access to (E), 1989; 9: 9.
stricture, obstructive, endoscopic sphincterotomy in, 1985; 4: 23.
Biopsy
  fine needle aspiration (E), 1989; 8: 73.
of intraductal and intrapancreatic masses, 1989; 8: 57.
  See Liver biopsy.
Bleeding. See Gastrointestinal bleed.
Hemostasis for esophageal strictures (P) 1991; 10: 133.
Bronchosilohistology, as presenting features of cholangitis, 1984; 5: 165.

Brush border enzymes, after oral dose of DDT or malathion, 1984; 3: 151.
Budd-Chiari syndrome,
  hepatopetal flow in (L), 1989; 8: 55.
Bypass arthritis associated with a gastrojejunal-ileal fistula (L), 1985; 4: 283.
Bi; See Vitamin B12.
Caudate organ transplantation See Transplantation, liver.
Celiac pancreatitis. See Pancreatitis.
Calcium channel blocker
effect on calcineurin calcium, 1986; 5: 294.
Calcium. See Bile duct stones.
Campylobacter, incidence of, in diarrheal cases and in control population, 1986; 5: 267.
Campylobacter jejuni infection with acute self limiting colitis and polyarthritis (CR), 1988; 7: 47.
Campylobacter pylori, association of, with gastritis, duodenal ulcer and gastric ulcer - A preliminary report of dyspeptic patients, 1988; 7: 141.
Cancer. See Carcinoma.
Candida
gastric cancer, following gastric surgery, 1987; 6: 221.
  See Candidiasis.
Candidiasis
duodenal, severe, in IGA deficiency and T cell defects (CR), 1990; 9: 95.
cephalospharyngeal (SR), 1997; 6: 163.
  See Candida.
Carcinoid
gastric, large, spontaneous regression of (CR), 1989; 8: 269.
tumor of duodenum, pertussis, neurofibromatoses associated with (L), 1989; 8: 306.
Carcinoma.
  See Colon carcinoma.
  See Duodenal carcinoma.
  See Esophageal cancer.
  See Gastric cancer.
  See Pancreatic cancer.
Cardiomyopathy. See Achalasia cardiaca.
Cassava toxicity, celiac pancreateitis and gastritis in (CR), 1988; 7: 169.
Cecum
  perforation, non-obstructive (Ogilvie's syndrome), after normal vaginal delivery (L), 1985; 8: 121.
  phyllocladus extending from stomach to (CS), 1990; 9: 237.
Charcoal activated, effect of liver supplementation and on fecal parameters and transit in the tropics, 1980; 7: 19.
Chemotherapy
Cholangiography
intravenous, common bile duct pressure and flow measurements: A guide to cholecdochal exploration, 1987; 6: 73.
guided aspiration cytology in malignant biliary obstruction, 1989; 8: 115.
Cholangiogram, endoscopic, duct openings in alcoholic chronic pancreatitis (P), 1991; 10: 86.
Cholangitis
primary sclerosing, with chronic pancreatitis (CS), 1990; 9: 299.
pyogenic, acute, endoscopic versus surgical drainage of biliary tract in (L), 1989; 8: 119.
Cholecystectomy
problems after, endoscopic retrograde cholangiopancreatography (ERCP) in, 1987; 6: 11.
drainage after (L), 1989; 8: 205.
excision, drainage after, 1982; 8: 91.
with and without drainage (L), 1990; 9: 322.
still the first choice (Controversy), 1989; 8: 282.
endoscopy sphincterotomy without, for common bile duct stone, 1988; 7: 105.
Cholecystitis
acalculous, spontaneous perforation of the left hepatic duct with (CS), 1990; 9: 317.
in gall bladder diverticulum (CS), 1991; 10: 64.
Cholestecholytic percutaneous transhepatic, and biliary endoscopic fibrotherapy (SA), 1982; 8: 13.
Cholelithiasis cystic duct, impacted as (CR), 1987; 6: 189.
Cholelithiasis, obstructive, extrahepatic, in carcinoma cervix, 1985; 4: 197.
Cholecystoduodenal fistula
An unusual complication of duodenal ulcer disease, 1986; 5: 51.
due to tuberculosis (CR), 1986; 8: 223.
Cholecystolithiasis. See Bile duct stones.
Cholelithiasis, biliary scintigraphy in (CS), 1991; 10: 25.
Cholecystectomy benign recurrent intrahepatic, associated with reinitis pigmentosa (CR), 1980; 7: 51.
Cholecystitis adenocarcinoma presenting as acute abdomen, 1985; 4: 103.
Chronic calcific pancreatitis. See Pancreatitis, chronic.
Chronic hepatitis. See Hepatitis.
Chronic renal disease. See Uremia.
cont comparison with antacids, 1983; 2: 73.
effect on gastric acid secretion in combination with an antisecretory agent, 1983; 2: 77.
vs malnutrition in duodenal ulcer treatment, 1985; 4: 53.
comparison with ranitidine in duodenal ulcer treatment, 1985; 4: 11.
Cryptosporidiosis
See Liver transplant.
Cirrhosis
See Indian childhood cirrhosis.
Cirrhosis of the liver in, 1985; 4: 201.
with portal hypertension, effect of sublingual nitroprusside in the presence of wedge hepatic venous pressure in, 1988; 7: 161.
clinical and investigative differentiation between portal vein thrombosis, non-cirrhotic portal fibrosis and cirrhosis, 1984; 3: 205.
clinical differentiation between portal vein thrombosis (PVT), non-cirrhotic portal fibrosis (NCPF), and cirrhosis by discriminant analysis, 1984; 3: 197.
Cystic dilatation of bile ducts
in patients with upper gastrointestinal bleeding, 1984; 3: 211.
Cisplatin (Ecteinasciduform), assessment of neurotoxicity of, by visual evoked potentials, 1985; 4: 165.
Coulter counters in portal hypertension (L), 1990; 9: 323.
Colectomy, total, mucosal proctectomy and straight ileo-anal anastomosis in chronic ulcerative colitis, adaptive changes in terminal ileum after, 1990; 9: 69.
a follow-up study, 1988; 7: 205.
Collagen
emphysematous, in (CR), 1987; 6: 117.
acrocyanotic and polyarthritis, Campylobacter jejuni infection with (CR), 1985; 7: 47.
See ulcerative colitis.
Colon carcinoma in a child associated with nodular lymphoid hyperplasia of (CR), 1990; 9: 205.
neurosis and inflammation due to pancreatitis, 1987; 7: 17.
transverse, adenocarcinoma of (L), 1988; 7: 57.
familial polyposis and villous adenoma of ampulla of Vater (CS), 1991; 10: 152.
Colon cancer in a child. See Colon cancer.
Colonic stenosis, in pancreatitis, 1984; 3: 103.
Colonoscopy, flexible, 1989; 8: 31.
Colonoscopy, follow-up (SR), 1987; 6: 99.
Common bile duct stones. See Bile duct stones.
Congo red test and modified sham feeding in determining completeness of vagotomy, 1989; 8: 145.
Copper
Indian childhood cirrhosis and, 1984; 5: 7.
Copyright violations (Editorial Policy) 1989; 8: 135.
Corrosive injury
advanced, longitudinal shortening of the esophagus in (L), 1990; 9: 97.
strain of esophagus, esophageal stricture in (P), 1991; 10: 133.
Cyst
See Duplication.
See Hepatoid cyst.

Cytology
cholangiographically guided aspiration, in malignant biliary obstruction, 1969; 2: 95.
transendoscopic needle aspiration (Technical note), 1968; 7: 43.
DJD, effect on intestinal uptake of nutrients, 1994; 3: 151.

Diagnosis of peptic ulcers, endoscopic sphincterotomy (EST) in choledochopancreatic tract diseases, 1987; 6: 25.

Diagnostic scoring systems. See Scoring system.

Dialysis, effect of, on gastric functions, 1984; 3: 73.

Dialysis

duodenal, congenital intrinsic obstruction due to (L), 1989; 8: 203.
rect in hepatic hydrothorax, ultrasonic documentation of (CR), 1989; 8: 111.

Diarrhea
interaction with malnutrition, with particular reference to pediatric practice, 1985; 4: 183.
associated with metastases from medullary carcinoma of thyroid (CR), 1989; 8: 155.
in medullary carcinoma of thyroid (L), 1989; 8: 368.

Duodenal ulcer. A rare cause of upper gastrointestinal bleeding (L), 1986; 5: 64.

Dimethazine. See Calcium channel blocker.

Diverticulitis and diverticulosis. See Diverticulosis.

Double GI - A possible solution to difficult cases of post-gastrojejunostomy stomal obstruction (L), 1986; 5: 143.

Dr FP Anifia - The Outstanding Editor, 1990; 9: 5.

Duodenal ulcer. See Candidiasis.

Duodenal mucous, effect of regular and soluble aspirin on, 1984; 3: 147.

Duodenal tuberculosis. See Tuberculosis.

Duodenal ulcer
— complicated and benign gastric ulcer disease, proximal gastric vagotomy for, 1988; 7: 223.
effect of single nocturnal dose of pirenperone versus ranitidine in, 1988; 7: 165.
— gastric ulcer and gastritis, association of Campylobacter pylori with, a preliminary report of dyspeptic patients, 1988; 7: 141.
perforation, following surgery, long term results of, 1988; 7: 227.
— chronic, obstructive jaundice due to (L), 1990; 9: 77.
— chronic, anterior stenotomy with posterior transvagotomy in, 1990; 9: 15.

effect of cimetidine and anticholinergic on the gastric acid secretion in patients with, 1983; 2: 77.
frequency of, in Bombay, 1984; 3: 77.
triamterene in, 1984; 3: 81.

Diabetes mellitus. See Diabetes mellitus.

Compensation and rehabilitation in, 1985; 4: 137.

Duodenal ulcer healing. Helicobacter pylori role in (E), 1990; 9: 265.

Duodenal ulcer and gastric obstructive jaundice, association of Campylobacter pylor i with, a preliminary report of dyspeptic patients, 1988; 7: 141.

Duodenal ulcer and diabetes mellitus. See Diabetes mellitus.

Duodenal ulcer and gastritis, association of Campylobacter pylori with, a preliminary report of dyspeptic patients, 1988; 7: 141.

Duplication, cystic, of alimentary tract (L), 1989; 8: 122.

Dyspepsia, non-ulcer
— effect of high dose liquid antacids on symptoms and endoscopic and histological changes in gastroesophageal reflux, 1988; 7: 45.

Dysentery. See Enteritis.

Ectopic pregnancy. See Ectopic pregnancy.

Electrocoagulation, endoscopic, electrosurgical coagulation with, in upper gastrointestinal bleeding, 1989; 8: 167.

Endoscopy
— in upper GI, bacteremia following, 1987; 6: 207.

Endoscopic retrograde cholangiopancreatography. See ERCP.
Endoscopic lithotripsy
biliary and percutaneous transhepatic cholecystostomy (SA), 1989; 8: 13.
percutaneous transhepatic, of the biliary system (E), 1985; 8: 28.
Endoscopic sclerotherapy. See Sclerotherapy.
Endoscopic sphincterotomy. See Sphincterotomy.
Eustachian tube, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.
Eustachian tube dysfunction, utility of culture technique for fever and biopsy material for the diagnosis of, 1985; 4: 145.

Gastric bleeding, myocarditis sequelae - gastric involvement with (CR), 1987; 6: 230.

Gastric encephalitis (LE), 1986; 5: 220.

Gastric ulcer
frequency in Bombay, 1984; 3: 77.
disease, benign and complicated duodenal ulcer, proximal gastric vagotomy for 1988; 7: 223.

Gastric cancer
serum pepsinogen levels in (SR), 1987; 6: 171.
chemotherapy of (E), 1984; 5: 5.
early, a clinicopathological study, 1988; 7: 29.
in childhood (LE), 1988; 7: 244.

Primary biliary cirrhosis, 1965; 4: 273.
Primary sclerosing cholangitis with chronic pancreatitis (CS), 1990; 9: 309.

Prognostic markers
in upper gastrointestinal hemorrhage, 1989; 8: 233.

Psoriasis. See Minoxidil.
Proctitis. See Proctitis.
Protein-losing enteropathy
Te-99m human serum albumin abdominal scanning in (CS), 1990; 5: 313.
gastrointestinal manifestation of protein loss (Review Article), 1989; 5: 271.
Proximal decompression, defunctioning ileostomy in left sided colonic resection, 1983; 2: 75.
Pulmonary disease, chronic obstructive, gastric acid and gastrointestinal changes in, 1987; 6: 77.
Pyorrhea, complications of amebiasis in, 1984; 3: 27.
Pyogenic hepatic abscesses in a neonate (L), 1988; 7: 58.
Pyrexia of unknown origin, due to tuberculosis of the liver, 1983; 2: 14.
Radiation
Ranitidine, comparison with cimetidine, in duodenal ulcer treatment, 1985; 4: 11.
Rectal varices (L), 1988; 7: 181.
Rectum prolapse, spontaneous rupture of, 1990; 9: 89.
Regular aspirin, effect of, on gastric mucosa, 1984; 3: 47.
Relative risk, HLA antigens and ulcerative colitis, 1984; 3: 17.
Retinoblastoma, benign recurrent intrahepatic cholestasis associated with (CR), 1985; 7: 51.
Relapsing antibody in different age groups, 1987; 6: 35.
in northern India, acute generalized arthritis associated with, clinical and epidemiological features of, 1989; 8: 23.
Scanning. See Scintigraphy.
Sclerosing cholangitis, bleeding gastric varices without obvious esophageal varices due to (L), 1986; 5: 56.
Splenectomy, endoscopic
without cholecystectomy for common bile duct stone, 1988; 7: 105.
in a northern Indian hospital, 1989; 8: 27.
(L), 1989; 8: 205.
Spleenic abscess. See Abscess.
Splen and liver disease (R), 1983; 2: 119.
Splen hematoma with splenoplenography (P), 1991; 10: 49.
Spleen omenated rabbits, 1982; 2: 121.
Spleenic size, estimation from splenoplenography, 1983; 2: 95.
Splenoplenography
percutaneous, retrograde filling of the right main hepatic vein on (L), 1988; 7: 127.
Spontaneous bacterial peritonitis in malignant ascites (CR), 1990; 5: 239.
Squamous cell carcinoma
do esophageum and chemotheraphy, 1984; 3: 33.
of the stomach (L), 1986; 5: 146.
Steatorrhea, exocrine pancreatic function in chronic pancreatitis with and without calcification, 1987; 6: 85.
Stomach
arteriovenous malformation of (L), 1989; 8: 201.
and esophageum exclusion for unsectectable carcinoma of thoracic esophagus, 1989; 8: 77.
carcinoid, large spontaneous regression of (CR), 1989; 8: 265.
in iron deficiency anemia (E), 1989; 8: 137.
perforation, trichobezoar: A rare cause of (L), 1989; 8: 302.
varices, bleeding, without obvious esophageum varices, due to hepatic schistosomiasis (L), 1989; 9: 56.
phytobezoar extending from, to cesum (CS), 1990; 8: 237.
Stomach carcinomas. See Gastric cancer.
Stool culture as a diagnostic aid for intestinal amoebiasis (S), 1985; 4: 139.
Strangulation, spontaneous abortion during digestive intestinal obstruction (L), 1988; 8: 244.
Streptococci
@BODY = esophageal and panesophageal (P), 1991; 10: 133.
esophageal, balloons catheter dilatation of, 1985; 7: 97.
of intestines, tubular and enteroliths, 1984; 3: 89.
Stranguloplasties
fatal, in India (L), 1990; 9: 160.
Subphrenic abscess (L), 1990; 8: 204.
Surgical symptoms (L), 1993; 10: 105.
Surgical menopause (E), 1987; 6: 133.
Suddenly changes in HLA antigens and ulcerative colitis, 1984; 3: 17.
T cell defects, IgA deficiency and severe duodenal condition in (CR), 1990; 9: 95.
To-99m human serum albumin abdominal scanning in protein losing enteropathy (CR), 1990; 9: 313.
Thrombosis
See Hepatic vein thrombosis.
Severe case, inferior.
Thyroid medullary carcinoma, disease associated with metastases from (CR), 1989; 8: 155, (L), 1989; 8: 308.
Transplant Cardiaction, immunotherapeutic modification by, of abdominal sepsis induced by acute ileus in rats, 1988; 7: 31.
Total parenteral nutrition in bone marrow transplantation, 1983; 2: 145.
Tracheal stents
in biliary calculi, 1986; 7: 15.
Transplantation, liver current status of, 1985; 4: 265.
Trachobronchitis (CR), 1989; 7: 55.
a rare cause of gastric perforation (L), 1980; 8: 302.
Tricyclicos, labeled, in man, intestinal absorption of, 1983; 4: 239.
Tropical sprue
HLA antigens in, 1983; 2: 12.
a review (1 & 2), 1982; 2: 20 & 87.
Tuberculares
rectal control of lympho-endothelial hemorrhage in, by transabdominal embolization (CR), 1990; 9: 149.
gut, enzyme-linked immunosorbent assay (ELISA) in, 1986; 5: 175.
cholecysto-duodenal fistula due to (CR), 1989; 8: 263.
omenta, causing acute intestinal obstruction (L), 1990; 8: 58.
necrotizing granulomatous inflammatory lesion, 1986; 5: 87.
ulcers of the small bowel, false perforation of, 1985; 4: 259.
abdomen, one fall in the diagnosis of low protein content of ascitic fluid (L), 1985; 4: 283.

T stenosis
estenosis, repair of bile duct calculi via, 123.
Ulcerative colitis
chronic, adaptive changes in terminal ileum after total colectomy, mucosal proctectomy and stricto-bowel anastomosis in, 1990; 9: 69.
with sclerosing cholangitis, 1986; 5: 205.
and cancer colonus, 1985; 5: 237.
and HLA antigens, 1983; 2: 17.
peritoneal colitis, rectal mucosectomy and ilo-bowel anastomosis, 1983; 2: 129.
prevalence in socio-economic groups, 1985; 4: 19.
with serositis, changes induced in disordered mucosubstances of gastric juice by effect of vegetable banana powder on, 1985; 4: 249.
Ultrasonography
documentation of disphagastic rest in hepatic hydrothorax (CR), 1989; 8: 111.
guided percutaneous fine needle aspiration biopsy (FNAB) of focal liver lesions (L), 1989; 8: 301.
of intercostobrachial and retroperitoneal masses 1989; 8: 99.
in plenic hematomas (P), 1991; 10: 40.
Ureteral stenosis, Ureter, one hour, for Helicobacter pylori infection, evaluation of a modified medium for, 1990; 9: 219.
Uremia
gevic and secretion in, 1984; 3: 73.
patients, operation and alleviation of the upper gastrointestinal tract in, 1988; 7: 249.
Vaccine, hepatitis. See Hepatitis B.
Vagotomy
competence of, sugar and spice of the surgeon's eyes? 1988; 7: 75.
determination of completeness of, abdominofixed form of insulin (Hollander's) test for, 1988; 7: 75.
proximal gastric, for complicated duodenal ulcer and benign gastric ulcer disease, 1988; 7: 223.
posterior transoral, anterior resection with in chronic duodenal ulcer, 1990; 9: 15.
mmodified sham feeding and cong red test in determining completeness of, 1989; 8: 145.
Various

SUBJECT INDEX 1982-91

INDIAN J GASTROENTEROL 1993 Vol 12 (Suppl 1) S73
bleeding, injection sclerotherapy for, 1985: 4; 35.
scleotherapy, endoscopic esophageal, a comparative trial of three different schedules for, 1990: 2; 201.
eoscleroma, endoscopic therapy for, A prospective, randomized trial of absolute alcohol versus polidocanol, 1985: 7; 47
rectal (L), 1988: 7; 151.
esophageal cancer with (CR), 1991: 10; 16.
radiotherapy and (CR), 1991: 10; 16.
sclerotherapy in (P), 1991: 10; 10, (L) 1991: 10; 32.
gastric, bleeding without obvious esophageal varices, due to hepatic schistosomiasis (L), 1989: 8; 56.
Vasculitis, in gut tuberculosis (E), 1991: 10; 125 (P), 1991: 10; 127.
Vasopressin infusion, continuous intrarterial, for control of typhoid hemorrhage (CR), 1990: 9; 235.
Vena cava inferior, thrombosis, treated with streptokinase and balloon dilatation (CR), 1991: 10; 144.
Viral gastroenteritis, 1984: 3; 225.
Viral hepatitis. See Hepatitis.
Vitamin B12 absorption, measurement by whole body counter and effect of body store saturation on it, 1982: 1; 16.

Volvulus
gastric, hematemesis: A rare presentation of (CR), 1990: 9; 23.
midgut and intestinal malrotation, Hirschsprung's disease with (L), 1989: 8; 201.

von Recklinghausen's disease, pancreatic cystadenoma in (CS), 1991: 10; 146.
Wedged hepatic venous pressure in cirrhosis with portal hypertension, effect of sublingual isosorbide dinitrate on, 1988: 7; 161.

a study of 12 cases (SR), 1987: 6; 227.

Workshop Summary, 1984: 3; 171.

Xylose, surface area corrected peak blood levels, evaluation as a screening test of intestinal malabsorption in the tropics, 1987: 6; 80.
Zinc, estimation in ulcerative colitis, 1983: 2; 17.
Zollinger-Ellison syndrome, cinetidine treatment for, 1984: 3; 101.
