Electromyography in assessment of anorectal sensorimotor function (Editorial), 107(2).
Emboliocclusion, transarterial, control of life-threatening hemorrhage in ocular tuberculosis (Case Report), 149(2).
Encephalopathy, hepatic, paroxysmal nocturnal hemoglobinuria, with hepatic vein thrombosis presenting as (Case Report), 91(1).
— portal systemic, nutritional management of (Letter), 165(2).
Endoscopy, esophageal variceal sclerotherapy, comparative trial of three different schedules for (29,135(2).
—, gastric aspiration analysis and hepatobiliary scintigraphy, comparative evaluation of, in the diagnosis of dudenogastric reflux in thoracic stomach, 277(4).
—, gastrointestinal, prevalence of Helicobacter pylori in symptomatic patients undergoing (Letter), 314(4).
Endoscopic polypectomy in ulcerative colitis, 48(1).
—, removal of retained bile duct calculi via T-tube tract, 123(2).
—, sclerotherapy, alcohol for (UO Controversy), 84(1).
—, morphological changes in esophagus following, with 3% aqueous phenol, 21(3).
Enteropathy, protein-losing, Tc-99m human serum albumin, abdominal scanning in (Case Report), 314(4).
Error, 258(3).
Esophageal cancer, gastric metastases from (Case Report), 36(1,4).
— chest pain, tortuous aorta—A new cause for? (Case Report), 153(2).
—, laparotomy, role of, in clinical practice (Special Article), 141(2).
—, motility testing: Shadow and substance (Editorial), 185(3).
—, studies in: Five year clinical experience in a Canadian tertiary hospital, 91(1,2).
—, variceal sclerotherapy, endoscopic, comparative trial of three different schedules for, 20(1,3).
—, longitudinal shortening of, in advanced corrosive injury (Letter), 97(1).
—, morphological changes in, following endoscopic sclerotherapy with 3% aqueous phenol, 21(3).
Foreign bodies, management of, in the upper gastrointestinal tract, 283(4).
Gastric atonic analysis, endoscopy and hepatobiliary scintigraphy, comparative evaluation of, in the diagnosis of dudenogastric reflux in thoracic stomach, 277(4).
Gastrointestinal bleeding in malignancy (Case Report), 295(4).
Helicobacter pylori in its lair: A role in ulcer recurrence? (Editorial), 265(4).
—, infection, evaluation of a modified medium for the one hour urease test for, 219(3).
—, isolation of, from dental plaques in healthy volunteers: 216(4).
—, prevalence of, in symptomatic patients undergoing gastrointestinal endoscopy (Letter), 324 (4).
Hematemesis: A rare presentation of gastric volvulus (Case Report), 93(1).
Hemoglobinuria, paroxysmal nocturnal, with hepatic vein thrombosis presenting as hepatic encephalopathy (Case Report), 91(1).
Hemorrhage, life-threatening, control of, in ocular tuberculosis, by transcatheter embolisation (Case Report), 149(2).
—, thrombosis, continuous intra arterial vasopressin infusion for control of (Case Report), 225(3).
Hemostatic alterations in non-cirrhotic portal fibrosis, extrahepatic portal venous obstruction and Budd-Chiari syndrome, 57(1).
Hepatic duct, left, spontaneous perforation of, with acalculous cholecystitis (Case Report), 374(4).
—, esophagogastric, paroxysmal nocturnal hemoglobinuria with hepatic vein thrombosis presenting as (Case Report), 91(1).
—, vein thrombosis, paroxysmal nocturnal hemoglobinuria with, presenting as hepatic encephalopathy (Case Report), 91(3).
Hepatitis B and delta virus in fulminant hepatitis, 20(3).
Phenol, 3% aqueous, morphological changes in esophagus following endoscopic sclerotherapy with, 213(3).

Physiological extending from stomach to cecum (Case Snippet), 237(2).

Polyarthritis, gastric carcinoma presenting as (Case Report), 233(3).

Polypectomy, endoscopic, in upper gastrointestinal tract, 41(1).

Portal fibrosis, non-cirrhotic, extra-hepatic portal venous obstruction and Budd-Chiari syndrome, hemostatic alterations in, 57(1).

— hypertension, coagulation profiles in (Letter), 323(4).

— effect of sublingual isosorbide dinitrate in, 113(2).

— ultrasonic demonstration of diminished respiratory caliber variation in portal vasculature: A sure sign of (Letter) 99(1).

— systemic exophthalmy, nutritional management of (Letter), 165(2).

— vasculature, ultrasonic demonstration of diminished respiratory caliber variation in: A sure sign of portal hypertension (Letter), 99(1).

— venous obstruction, extra-hepatic, non-cirrhotic portal fibrosis and Budd-Chiari syndrome, hemostatic alterations in, 57(1).

Primary sclerosing cholangitis with chronic pancreatitis (Case Snippet), 309(4).

Protein-losing enteropathy, To-99n human serum albumin abdominal scanning in (Case Snippet), 313(4).

Rectum sensory testing, anorectal manometry, and anal myography in anorectal conditions (Special Article), 75(1).

— prolapse, spontaneous rupture of (Case Report), 89(1).

Scanning, abdominal, To-99n human serum albumin in, protein-losing enteropathy (Case Snippet), 313(4).

Scientific sessions of ISO conference, Bangalore, 1989 (Letter), 243(3).

Scintigraphy, hepatobiliary, endoscopy and gastric aspirate analysis, comparative evaluation of, in the diagnosis of duodenal-gastric reflux in thoracic stomach, 277(4).

Sclerosant, alcohol as (Letter), 244(3).

— (Controversy), 83(1).

Sclerotherapy, endoscopic, alcohol for (II) (Controversy), 84(1).

— morphological changes in esophagus following, with 3% aqueous phenol, 213(3).

— variceal, endoscopic esophageal, comparative trial of three different schedules for (Letter), 219(1).

Selected Summaries, 173(2), 251(3).

Serositis, anterior, with posterior truncal vagotomy in chronic duodenal ulcer, 15(1).

Spongyosclerotic peritonitis in malignant ascites (Case Report), 239(3).

Stomach carcinoma in a child associated with nodular lymphoid hyperplasia of the colon (Case Report), 309(4).

— presenting as polyarthritis (Case Report), 233(3).

— metastases from esophageal cancer (Case Report), 309(4).

— volvulus, hematemesis: A rare presentation of (Case Report), 92(1).

— physiological extending from, to cecum (Case Snippet), 237(2).

— thoracic: Comparative evaluation of endoscopy, gastric aspirate analysis and hepatobiliary scintigraphy in the diagnosis of duodenal-gastric reflux, 277(4).

Stool microscopy and serology (enzymes linked immunosorbent assay), comparison of, in epidemiology of amebiasis, 25(1).

Streptococci, fatal, in India (Letter), 10(1).

T cell defects, IGA deficiency and, severe duodenal candidiasis in (Case Report), 99(1).

To-99n human serum albumin abdominal scanning in protein-losing enteropathy (Case Snippet), 313(4).

Vaccine, yeast derived, immunogenicity of, in Pakistani adults, 29(1).

Delta B viruses in fulminating hepatitis, 29(1).

Fulminating, hepatitis B and delta viruses in, 29(1).

Hypothyroidism, chronic-gastrointestinal syndrome with (Case Report), 229(3).

IgA deficiency and T cell defects, severe duodenal candidiasis in (Case Report), 99(1).

Ileo-anal anastomosis, straight, total colectomy, mucosal proctectomy and, in chronic ulcerative colitis, adaptive changes in intestinal ulcer after, 99(1).

Ileum, terminal, adaptive changes in, after total colectomy, mucosal proctectomy and straight ileo-anal anastomosis in chronic ulcerative colitis, 99(1).

Index to Advertisers, 101(1), 154(2), 255(3), 336(4).

Indian childhood cirrhosis and Kala-azar in a child (Letter), 165(2).

Intestine, small, and Meckel's diverticulum, primary ascendant perforations of, 287(4).

Irritable bowel syndrome, neuroticism in, 29(1).

Ischemic bowel disease, 9(1).

ISG Meeting News, 247(3).

Isoniazid, sublingual, effect of, on portal hypertension, 113(2).

Jaundice, obstructive, antegrade clearance: prognostic marker for, 63(1).

— obstructive, due to chronic duodenal ulcer disease (Letter), 97(1).

— ultrasonographically, 51(1).

Kala-azar, Indian childhood cirrhosis and, in a child (Letter), 165(2).

— liver in, 138(2).

Liver biopsy, percutaneous Tru-cut needle, bile ascites following (Letter), 98(1).

— in Kala-azar, 138(2).

Lymphoid hyperplasia, nodular, of the colon, gastric carcinoma in a child associated with (Case Report), 309(4).

Malaria, gastrointestinal bleeding in (Case Report), 295(1).

Manometry, anorectal, and myography and rectal sensory testing in anorectal conditions (Special Article), 75(1).

Meckel's diverticulum and small intestine, primary ascendant perforations of, 287(4).

Medroxyprogesterone acetate, effect of various doses of, on intestinal function in rats, 45(1).

Melena, intractable diarrhea and, in AIDS (Case Report), 159(2).

Mesothelioma, primary peritoneal (Case Snippet), 241(3).

Metastases, gastric, from esophageal cancer (Case Report), 309(4).

Myography, anal, anorectal manometry, and rectal sensory testing in anorectal conditions (Special Article), 75(1).

Neurocrine, Functioning, 35(1).

Neurocrine in irritable bowel syndrome, 29(1).

Nodular lymphoid hyperplasia of the colon, gastric carcinoma in a child associated with (Case Report), 309(4).

Non-cirrhotic portal fibrosis, extra-hepatic portal venous obstruction and Budd-Chiari syndrome, hemostatic alterations in, 57(1).

Pancreatic ductography, ultrasound guided, 129(2).

Pancreatitis, chronic, primary sclerosing cholangitis with (Case Snippet), 309(4).

Paroxysmal nocturnal hemoglobinuria with hepatic vein thrombosis presenting as hepatic exsanguinations (Case Report), 91(3).

Perforation, spontaneous, of the left hepatic duct with acalculous cholecystitis (Case Snippet), 317(4).

Perforation report 1983-1989 (From the Editor's desk), 9(1).

Perforated mesenterothelium, primary (Case Snippet), 241(3).

Pericarditis, spontaneous bacterial, in malignant ascites (Case Report), 239(3).

INdIAN J GASTROENTEROLOG VOL 9 NO 4 OCTOBER 1990

SUBJECT INDEX 335
Thoracic stomach: Comparative evaluation of endoscopy, gastric aspiration analysis and hepatobiliary scintigraphy in the diagnosis of duodenogastric reflux, 279(4).

Thrombosis, hepatic vein, paravascular nocturnal hemorrhage with, presenting as hepatic encephalopathy (Case Report), 91(1).

Tuberculosis, coeliac control of life-threatening hemorrhage in, by transanastomotic embolisation (Case Report), 140(2).

Typhoid hemorrhage, continuous intravenous vasopressin infusion for control of (Case Report), 225(3).

Ureter recurrence, Helicobacter pylori in its lair: A role in (Editorial), 265(4).

Ureteric colitis, chronic, adaptive changes in terminal ileum after total colectomy, mucosal proctectomy and straight ileo-anal anastomosis in, 69(1).

Ultrasound demonstration of diminished respiratory caliber variation in portal vasculature: A sure sign of portal hypertension (Letter), 99(3).

— guided percutaneous drainage, 129(2).

— in obstructive jaundice, 51(1).

Urease test: one hour, for Helicobacter pylori infection, evaluation of a modified medium for, 219(3).

Vagotomy, posterior truncal, anterior seromotony with, in chronic duodenal ulcer, 15(1).

Variceal sclerotherapy, endoscopic esophageal, comparative trial of three different schedules for, 291(3).

Vasopressin infusion, continuous intravenous, for control of typhoid hemorrhage (Case Report), 225(3).

Volvulus, gastric, hematoma: A rare presentation of (Case Report), 93(1).
